Ms **Vladimira Silhankova**, from **NGO Civitas per Populi**, would like to be a project partner within **Priority 3 (Territorial Indicators & Indices)** of this Call for Proposals.

Here are some brief characteristics of their interest: the research will be focused on urban dynamics e.g. the speed of urbanisation during last 15 years. There will be measured urbanized area in the comparison with non-urbanized area and a portion of brownfields on urbanized area. The main aim of the research is to create an indicator which would describe urban dynamics. It would be also possible to monitor disparities in regional development of EU regions NUTS II.

The Scientific Platform, Priority 3 of the ESPON Programme, represents a core element in the knowledge base being created by ESPON. Projects carried through shall contribute with solid facts and methodologies in support of quality evidence to the policy development processes. In addition, they shall contribute to the building of European datasets, indicators and tools that constitute a foundation for a scientific community in the field of European territorial science.

In support of the Scientific Platform under ESPON activities, a Call for Proposal for one project is open. The theme of this project is **Territorial Indicators/Indices**

Potential beneficiaries of this call are public and private bodies.

The application pack and the is available on Espon 2013 website http://www.espon.eu/mmp/online/website/content/programme/1455/1496/2621/2630/index_EN.html .
